Description:

The FAKRA-Z transfer point allows you to relocate one antenna socket of the Smart Meter Gateway (SMGW) from the sealed area into the customer accessible area. This makes it easier to install antennas in or at the cabinet. In addition, antennas can be added or replaced later without the need for re-sealing, which significantly reduces the cost of reworking. If the FAKRA-Z transfer point is used for the LMN-A connection of the gateway, this can considerably simplify the subsequent installation of an LMN antenna for wireless M-Bus.

Technical details:

Part number	00584
Dimensions	100 x 100 x 18 mm
Weight	30g
Country of origin	Germany
HS Code	85442000
Color	grey
Mounting type	DIN rail mounting tool-free installation and removal
Product type	Extension cable with attached DIN rail housing
Connectors	FAKRA-Z (right-angled female connector at the cable end, male connector in DIN rail housing)
Cable length	30 cm
Temperature range	-40 °C to +85 °C
Flammability	flame-retardant in accordance with UL 94 V-0
Conformity	RoHS, WEEE, CE
